Track & Trace of Export Import Containers

10,500 Buses 670 BRT Stations

Smart Transportation in Uttar Pradesh, Pune, Ahmedabad, Surat and Hubballi

NEC India

Powering Businesses from Sea to Space

Smart City

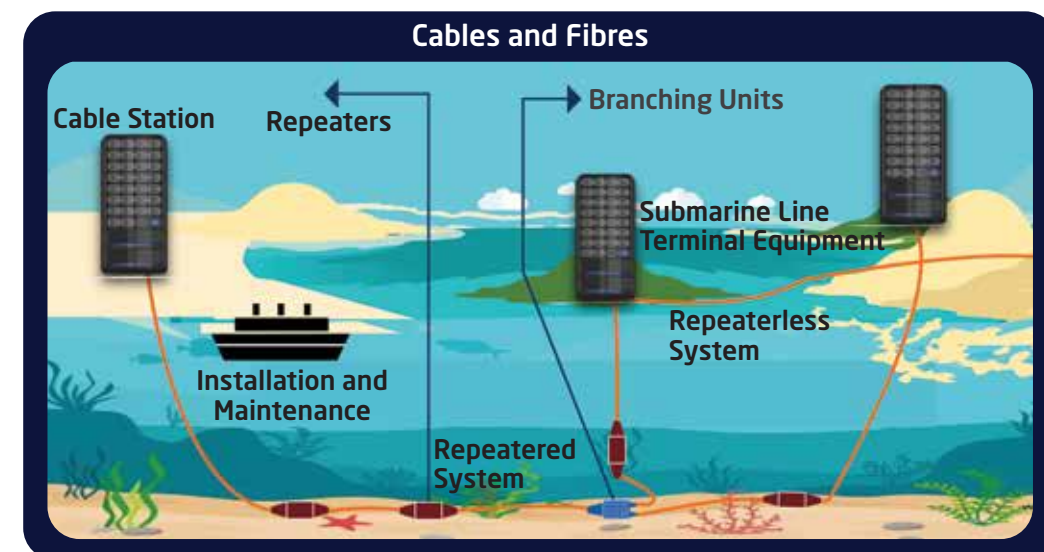

Building Safer, Smarter, and Efficient Cities

NEC has been among the leaders in creating smart and safe cities around the world. Our efforts are underpinned by deep domain knowledge and a range of advanced technologies including the Internet of Things (IoT), Artificial Intelligence (AI), Video Analytics, and Biometrics solutions such as fingerprint, face, and iris recognition, combined with our exceptional network capabilities.

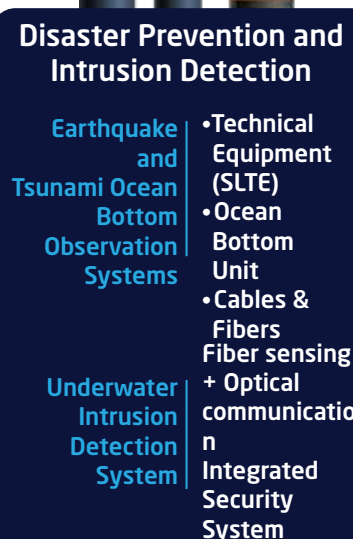

Submarine

Building a robust foundation for next-gen cross-continent communication

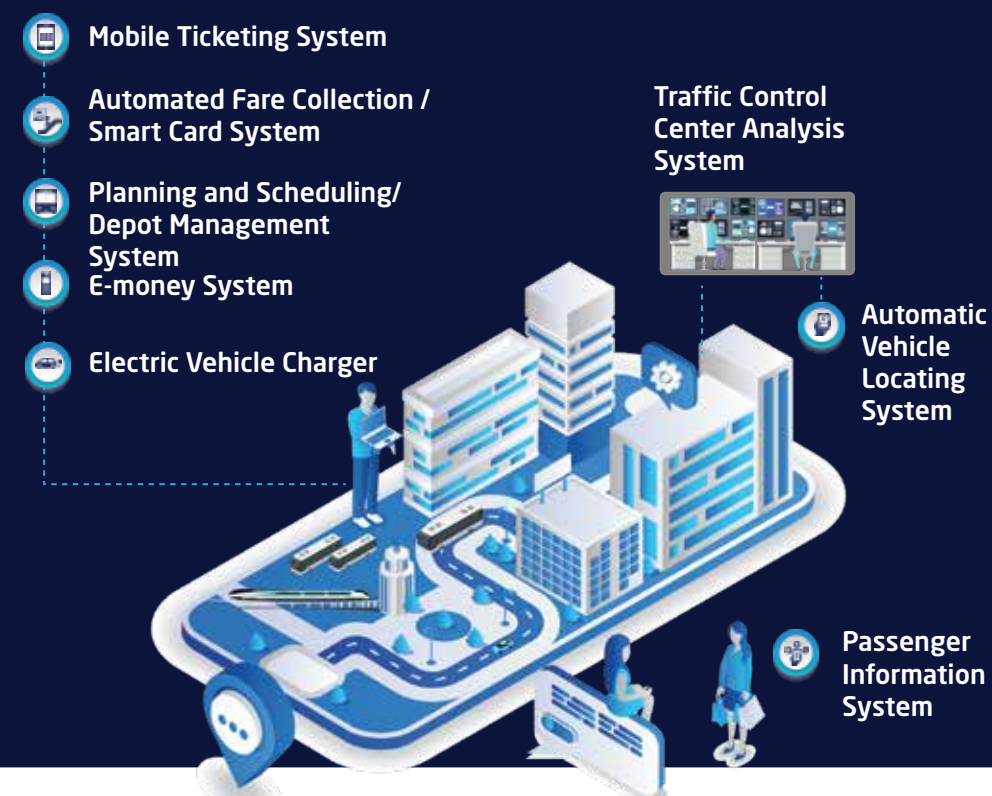

Desk-top studies | Marine surveys | System design | Permitting | Installation and commissioning of wet and dry plant
2nd and 3rd line support functions | Spares management | Ongoing operations management | Full turnkey solution delivery

Smart Transportation

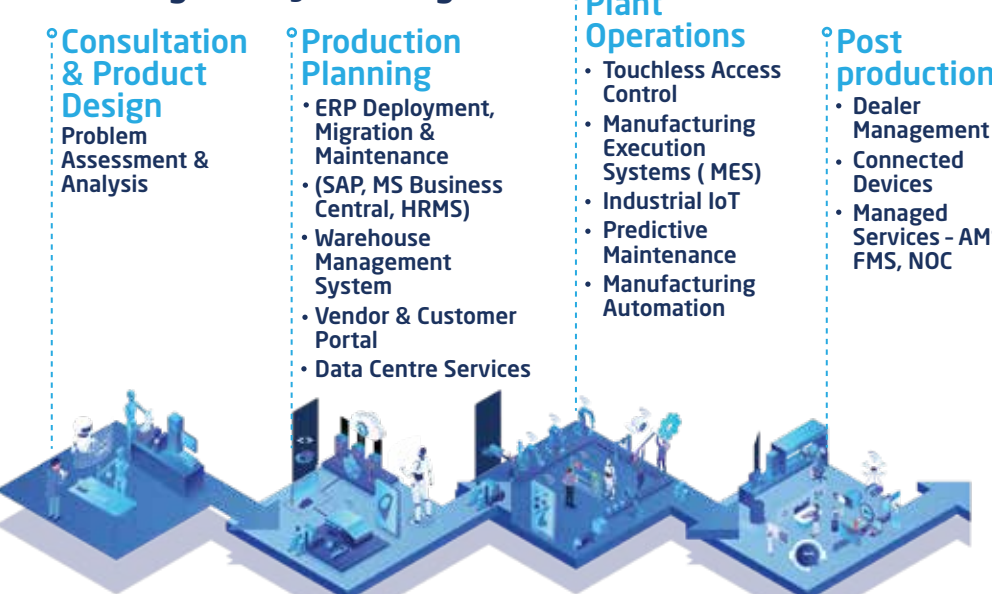

Making Public Transport Safer, Seamless and convenient

NEC's Smart Transportation solutions aim at resolving issues faced by both passengers as well as operating agencies. NEC leverages the power of ICT to solve social and economic challenges such as traffic congestion in public transport. By applying the experience, it has cultivated over several years of delivering successful projects to customers, NEC is contributing to achieving an eco-friendlier public transportation infrastructure in India and the world-over.

Smart Manufacturing

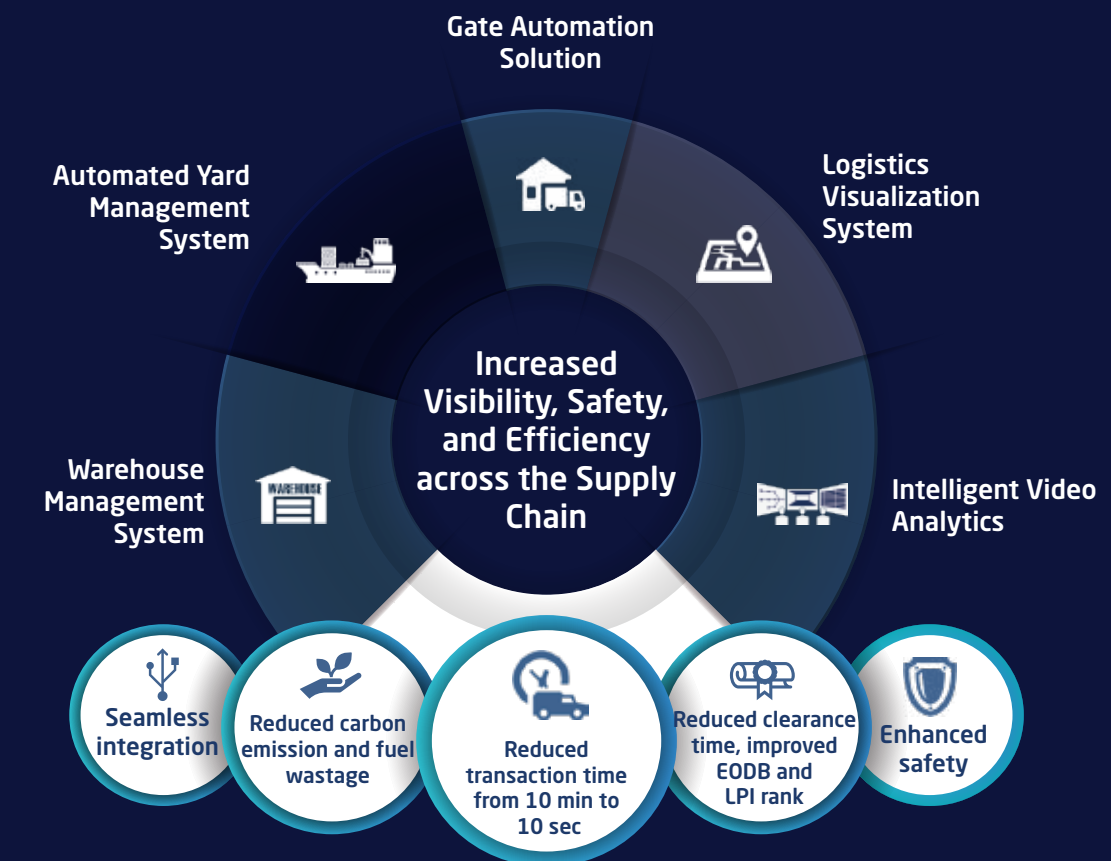

Accelerating your Smart Factory and Industry 4.0 Journey

Smart Logistics

Driving Operational Excellence across the Supply Chain

NEC offers a comprehensive suite of cutting-edge logistics solutions, backed by in-depth domain knowledge and technical expertise, to create unified digital platforms that automate end-to-end operational flow, streamline cargo exchange between stakeholders, enable real-time shipment visibility, and induce data-driven decision-making.

Telecom & 5G

Experience the pinnacle of 5G evolution with end-to-end network support, Open RAN precision, and cutting-edge core solutions, delivering unparalleled innovation, agility, and scalability for evolving network needs.

Unified Communication & Collaboration Solutions

Building seamless communication across and beyond the enterprise

Artificial Intelligence

Augmenting Customer Experience with Next-gen Technologies

We present a comprehensive suite of AI and Big Data solutions, enabling customers to navigate the complexities of digital transformation and usher the power of data-driven insights in their business processes.

End-to-End Solution | Skilled & Agile Workforce
Strong Customer Focus | Turnkey Engagement | Innovation

Display Solutions

Elevating Customer Experience with Superior Digital Signage Solutions

Auditoriums | Command & Control | Media & Advertisement Walls | Airport Displays | Education & Research | Video Conferencing

World's only Technology Independent Display Solutions
